

JWSC is rescinding Stage Two of its Drought Contingency Plan (DCP) and falling back to Stage One. The [DCP](#) can be found in its entirety at https://jonestownwsc.org/documents/1423/Drought_Contingency_Plan.pdf

B. **Requirements for termination** - Stage 2 of the Plan may be rescinded when:

1. Treatment Capacity:
 - The water treatment plant capacity condition listed above as a triggering event for Stage 2 has ceased to exist for five consecutive days; or
 - The groundwater pumpage amounts have fallen below the 85 percent threshold, and remained below that level for five consecutive days.
2. Water Supply:
 - LCRA announces that voluntary compliance to implement a utility's mandatory water restrictions are no longer needed in accordance with the LCRA DCP.

Upon termination of Stage 2, Stage 1 becomes operative.

Stage One

Triggering criteria

1. Treatment Capacity:
 - 80 % of capacity for three consecutive days
 - 85 % on a single day
2. Water Supply:
 - Combined storage of Lakes Travis and Buchanan reaches 1.4 million acre-feet in

Reduction measures
